

Special Issue

Maternal–Fetal and Neonatal Diagnostics

Message from the Guest Editor

Maternal–fetal medicine has been a discipline since 1960 and it is one of the most rapidly evolving fields in medicine, especially in regard to the fetus. In this context, twin pregnancies represent a fascinating challenge in daily obstetric practice. Antenatal fetal assessment, maternal assessment, the management of labor, and the postnatal follow-up of newborns represent major topics in this field. This Special Issue is dedicated to the study of pregnant women with chronic conditions, women at risk for pregnancy-related complications, and women with at-risk fetuses. I am pleased to invite you to submit your works to advance the management of perinatal medicine. We welcome a diverse range of contributions, including reviews, original research articles, case reports, interesting images, and guidelines, all aiming to advance our understanding of perinatal medicine. I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
