

## Special Issue

# Diagnostic Imaging of Pulmonary Diseases

### Message from the Guest Editor

Pulmonary diseases remain among the leading causes of morbidity and mortality worldwide, and imaging plays a pivotal role in their diagnosis, management, and follow-up. Continuous advances in imaging technology and quantitative approaches are reshaping the way thoracic disorders are detected and characterized, offering new opportunities for precision medicine. This Special Issue of *Diagnostics* aims to gather high-quality contributions focusing on diagnostic imaging of pulmonary diseases, aligned with the journal's scope of clinical and translational diagnostics. We welcome original research articles, comprehensive reviews, and illustrative case reports addressing a wide range of topics, including conventional and advanced imaging modalities, quantitative imaging, radiomics, artificial intelligence, and novel applications in clinical practice.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
