Microbiology Laboratory: Sample Collection and Diagnosis Advances

Message from the Guest Editors

Infectious microbes continue to emerge, causing persistent infections, re-infections, and epidemics worldwide. Advances in the detection of nucleic acids, antigens, and protein assays, as well as the genomic characterization of drug susceptibility markers, have improved microbial diagnosis and treatment. Furthermore, innovations in sample collection, pre-processing, home collection, and point-of-care/decentralized testing have expanded the reach of microbial diagnosis to new patients, populations, and resource-challenged environments. We welcome the submission of manuscripts related to novel advances in the microbial diagnosis of infectious diseases, including but not limited to the fields of virology, bacteriology, mycology, and molecular epidemiology. Acceptable submission types include research articles, short research notes, and reviews.

Guest Editors

Prof. Dr. James P. Chambers

Department of Biology, University of Texas at San Antonio, San Antonio, TX 78249, USA

Dr. Luke T. Daum

LuJo BioScience Laboratory, 1747 Citadel Plaza, Suite 201, San Antonio, TX 78209, USA

Deadline for manuscript submissions

closed (30 November 2024)

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
