# New Horizons in Digestive Endoscopic Diagnosis

### Message from the Guest Editor

In recent years, digestive endoscopy has rapidly evolved into a cornerstone of modern medicine, not only as a therapeutic option but as a powerful, minimally invasive and highly accurate diagnostic tool. The introduction of novel imaging technologies, advanced endoscopic platforms and artificial intelligence-based systems is transforming how clinicians detect, classify and stage gastrointestinal diseases. From early recognition of neoplastic lesions to advanced evaluation of inflammatory disorders, endoscopic diagnosis is opening new horizons in precision medicine. This Special Issue welcomes articles focusing on advances in diagnostic endoscopy, including innovative imaging modalities. Al-assisted detection and optimized pathways for digestive diseases. Contributions addressing the role of emerging technologies in enhancing accuracy, reproducibility, and clinical decision-making are encouraged. Our objective is to provide updated evidence, reinforcing the central role of cutting-edge endoscopic diagnosis in enabling earlier interventions, guiding personalized strategies and improving patient outcomes.

## **About the Journal**

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

### Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

#### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

#### **Journal Rank:**

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
