

Special Issue

Hearing Loss and Deafness: Identification, Management, Prevention, and Rehabilitation

Message from the Guest Editors

This Special Issue aims to comprehensively address the many aspects and dimensions of hearing loss. With a focus on diagnosis, prevention, and both established and cutting-edge interventions, this Special Issue aims to define current practice and show case advancements in the field.

Emphasizing the importance of early identification and intervention, this Special Issue will explore new and established techniques for diagnosing hearing loss across age groups, from neonates to older adults. Incorporating the latest technologies, including genetic testing, audiometric assessments, and imaging modalities, the goal is to provide readers with a detailed and pragmatic understanding of modern hearing loss diagnostics.

This Special Issue will cover the management and rehabilitation of individuals with hearing impairments, encompassing a range of interventions from hearing aids and hearing implants to cochlear and auditory brainstem implants. Special attention will be given to emerging technologies and rehabilitative strategies aimed at optimizing auditory function and enhancing quality of life.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
