Special Issue

Clinical Diagnosis and Management in Anesthesia and Pain Medicine

Message from the Guest Editor

Advancements in anesthesia and pain medicine have led to a refined approach to managing complex medical conditions, improving patient outcomes and quality of life. Despite these advancements, there remains a critical need for further understanding of diagnostic approaches and management strategies in pain medicine and anesthesia subspecialties. This Special Issue focuses on exploring clinical insights, innovative techniques, and outcomes associated with the diagnosis and management of medical conditions in anesthesiology and pain medicine. The aim of this Special Issue is to create a comprehensive platform for practitioners and researchers to discuss current practices, emerging techniques, diagnostic modalities, and treatment options across all aspects of anesthesiology and pain management. This collection will cover a wide variety of topics related to all subspecialties of anesthesiology and pain medicine. We invite original research articles and reviews that provide insights into evolving trends and offer evidence-based recommendations for patient-centered, interventional care.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
