Advances in Pediatric Ophthalmology Diagnostics and Management

Message from the Guest Editors

Pediatric ophthalmology is a specialized field of medicine that focuses on the diagnosis and management of eye disorders in children. It poses a particular challenge for ophthalmologists due to the anatomical, physiological, and developmental differences between the eyes of children and those of adult patients. One of the key challenges is obtaining a reliable medical history and maintaining cooperation during the examination. Young patients are not always able to describe their symptoms or follow a doctor's instructions, and it is well known that early diagnosis of eye diseases in children, especially congenital glaucoma, congenital cataracts, retinal diseases, visual impairments, and many others, is crucial for effective treatment and prevention of permanent visual impairment. In many cases, eye diseases can be asymptomatic or cause nonspecific symptoms, which further complicates diagnosis.

Our Special Issue will feature articles on diagnostic test results and the outcomes of surgical procedures in children. We encourage ophthalmologists to share diagnostic test results and the outcomes of conservative and surgical treatment.

Guest Editors

Dr. Mariola Dorecka

1. Department of Ophthalmology, Prof. K. Gibiński University Clinical Center, Medical University of Silesia, 40-514 Katowice, Poland
2. Department of Ophthalmology, Faculty of Medical Sciences in Katowice, Medical University of Silesia, 40-514 Katowice, Poland

Dr. Bogumiła Wójcik-Niklewska

1. Department of Pediatric Ophthalmology, Faculty of Medical Sciences in Katowice, Medical University of Silesia, 40-055 Katowice, Poland
2. Professor Kornel Gibiński University Hospital Center, Medical University of Silesia, 40-514 Katowice, Poland

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
