

Special Issue

Advancing Diagnostics in Neuroimaging

Message from the Guest Editor

We are pleased to announce this Special Issue of *Diagnostics*, entitled “Advancing Diagnostics in Neuroimaging.” This issue aims to capture the transformative momentum in the field, driven by rapid innovations in artificial intelligence, novel MRI and PET techniques, quantitative biomarkers, and multimodal data integration. We seek to highlight contributions that not only demonstrate technical excellence but also directly enhance diagnostic precision, guide therapeutic decisions, and improve patient outcomes across pediatric and adult populations. We cordially invite the submission of original research, comprehensive reviews, and clinical perspectives that bridge the gap between technological innovation and clinical application. By bringing together a diverse collection of manuscripts, this issue will provide a critical snapshot of the present and future of neuroimaging, underscoring its indispensable role in neurology. We encourage submissions that will shape this discourse and contribute to the advancement of patient-centered neurological care.

Guest Editor

Dr. Ali Y Mian

Department of Radiology, Washington University in St. Louis School of Medicine, St. Louis, MO, USA

Deadline for manuscript submissions

30 September 2026

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
