Special Issue

Advances in Sleep and Respiratory Medicine

Message from the Guest Editor

Sleep and respiratory disorders are increasingly recognized as significant contributors to global morbidity and mortality, with growing implications for public health and healthcare systems. This Special Issue, entitled "Advances in Sleep and Respiratory Medicine", aims to showcase the latest research. innovations, and clinical advancements in the diagnosis, treatment, and management of conditions such as obstructive sleep apnea (OSA), chronic obstructive pulmonary disease (COPD), insomnia, hypersomnia, and other related disorders. We welcome the submission of original research articles, clinical trials, review papers, and translational studies that explore novel diagnostic tools (e.g., wearable sensors, wireless monitoring), therapeutic interventions (e.g., CPAP optimization), and integrative approaches that link respiratory health with cardiovascular, neurological, or metabolic outcomes. We particularly encourage the submission of studies incorporating artificial intelligence, big data analytics, and digital health solutions in sleep and respiratory care.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418).

Diagnostics is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.3 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
