Urologic Oncology: Clinical Diagnosis and Treatment

Message from the Guest Editors

Urologic oncology stands at the forefront of medical research and innovation. As advancements in technology and medical understanding continue to accelerate, the landscape of urologic oncology is undergoing profound transformations. Clinicians, researchers, and patients are now faced with an array of diagnostic tools, therapeutic approaches, and personalized treatment options, raising crucial questions about the most effective strategies used for diagnosis and treatment. This field encompasses a range of cancers, including (but not limited to) prostate, bladder, kidney, and testicular cancers, each presenting unique challenges and opportunities for medical intervention. This Special Issue seeks to bridge the gap between cutting-edge research and its translation into optimal patient care. By scrutinizing the latest diagnostic techniques, exploring novel biomarkers, evaluating the efficacy of existing treatments, and investigating emerging therapies, this edition aims to highlight the path towards enhanced clinical outcomes and improved quality of life for patients grappling with urologic malignancies.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
