Pathogenesis and Early Diagnosis of HPV-Related Cancers and Pre-Cancers

Message from the Guest Editors

We are pleased to invite you to contribute to this Special Issue entitled “Pathogenesis and Early Diagnosis of HPV-Related Cancers and Pre-Cancers”. Human papillomavirus (HPV) infection is a well-established cause of several malignancies, including cervical, vaginal, vulvar, anal, penile, and oropharyngeal cancers. Despite major advances in prevention, many questions remain regarding the biological mechanisms underlying the progression from infection to cancer, the identification of individuals at highest risk, and the development of tools to improve early detection. This Special Issue aims to explore the most recent advances in understanding the pathogenesis of HPV-related cancers and pre-cancers, with a particular focus on early diagnosis. We welcome original research articles and reviews addressing molecular mechanisms, host-virus interactions, and the role of the microbiome, as well as the development and validation of novel molecular assays, biomarkers of persistence or progression, and prognostic indicators of treatment outcomes and recurrence risk.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
