

Special Issue

Breast Imaging

Message from the Guest Editor

Breast imaging is one of the most exciting subspecialties in Radiology. Although x-rays were first used to image the breasts in 1913, Dr. Robert Egan developed the first mammograms using what he termed the "Egan technique" in the 1950s at The University of Texas MD Anderson Cancer Center. In the 60 years since Dr. Egan's work, Breast Imaging has grown, evolved, and advanced to include other modalities, technologies, and techniques. The Special Issue on "Breast Imaging" aims at bringing together a collection of recent research and review articles appealing to residents as well as seasoned radiologists. Submissions will be invited covering the basics of breast imaging for the detection of breast malignancy; newer technologies used in detection and diagnosis; and interventional techniques.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
