Imaging of Cervical Cancer

Message from the Guest Editor

In contrast to other solid tumours, the FIGO staging of cervical cancer historically relied on clinical features. With the 2018 revision of the FIGO staging system of cervical cancer, imaging has a major role in the diagnosis and management of the disease. The topics of this Special Issue aim to focus on, but are not limited to, the following:

- the role of imaging in the diagnostics of cervical cancer;
- limitations and accuracy of the selected methods;
- novel imaging biomarkers in cervical cancer;
- the predictive value of imaging on survival;
- the potential role of artificial intelligence in data processing including the future aspects of colposcopy;
- the prospects of image-guided radiotherapy, with a special focus on brachytherapy.

Submissions of original preclinical or clinical papers contributing to the advances in this field as well as reviews are encouraged.

Guest Editor

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
