Chronic Fatigue-Spectrum Disorders in the Era of COVID-19

Message from the Guest Editors

SARS-CoV-2 infection complicates matters in a substantial number of patients through a CFSd termed long COVID, which constitutes a serious public health concern in the context of the current pandemic. Currently, physicians and scientists in the care of CFSd patients have to deal with the uncertainties regarding pathophysiological mechanisms, diagnostic approaches, and required investigations. We invite investigators to contribute original research articles, as well as reviews investigating CFSd pathophysiology, the criteria and biomarkers to be used for diagnosing and stratifying patients, the methods for quantifying fatigue and disability, and the contribution of biological testing, including immunological, genetic and multi-omics approaches, and physiological, imaging and histological studies. Pilot studies in animals and relevant human case reports will also be acknowledged.

Guest Editors

Prof. Dr. François-Jérôme Authier

Reference Center for Neuromuscular Diseases, Henri Mondor University Hospital, Paris Est University, Créteil, France

Prof. Dr. Jean-Dominique De Korwin

Lorraine University and Nancy University hospital, CHU de Nancy, Nancy, France

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
