

## Special Issue

# Diagnosis and Prognosis in Disorders of Consciousness

### Message from the Guest Editors

The aim of this Special Issue is to provide an overview of this lively field of research by collecting contributions covering various aspects related to this topic, starting from the main question of consciousness diagnosis that can be investigated through low-cost and easy-to-implement measures of consciousness, or by the use of more sophisticated instrumental techniques.

Multimodal approaches validated by multicenter studies will be considered with more emphasis. Contributions may also be related to other factors that might interfere with prognosis from observational studies down to clinical trials and applications. Submissions on neurorehabilitation pathways and the use of innovative rehabilitation strategies for patients with DoCs will also be appreciated. Finally, reviews or papers concerning the ethical implications of the treatment of patients with DoCs will be considered.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
