

Special Issue

Kidney Disease: Biomarkers, Diagnosis and Prognosis

Message from the Guest Editor

This Special Issue offers an open-access forum that aims to bring together a collection of original research and review articles addressing novel biomarkers, techniques, and approaches that will be valuable and helpful for the diagnosis or analysis of kidney diseases, assessment of kidney disease activity, and renal prognosis. We hope that this Special Issue will help us in the diagnosis, evaluation, and treatment of kidney diseases in the clinical setting and will provide an essential and insightful clue in our understanding of the development and progression of kidney diseases.
