Special Issue

Head and Neck Imaging

Message from the Guest Editor

This Special Issue showcases recent advances in the realm of quantitative head and neck imaging. In particular, selected original research articles are included that highlight the use of artificial intelligence and radiomics to better characterize abnormalities in the head and neck depicted on CT and MRI. These techniques will likely become ubiquitous tools to assist head and neck radiologist interpretations as they are eventually incorporated into the workflow. Potential applications that are of research interest include implementing automated anatomy and lesion segmentation and measurement, using texture and surface features to differentiate lesions, predicting optimal treatment selection, and assessing treatment response.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
