# **Special Issue**

# Cross-Modality and Multi-Modality Imaging in Heart Disease

### Message from the Guest Editors

In a patient with suspected angina, a diagnostic workup that comprehensively assesses both anatomic and functional alterations of coronary circulation is needed to convincingly exclude or confirm the diagnosis of angina. Overall, this Special Issue will underline that a patient with coronary artery disease should be studied by different modalities, invasive or not, to guide revascularisation and to discriminate patients at high risk of an adverse cardiovascular outcome and to understand the real mechanism of angina and, in this way, improve the prognosis of CAD patients.

# **About the Journal**

## Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

### Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

#### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

#### **Journal Rank:**

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
