

Topical Collection

Interesting Images

Message from the Collection Editor

It is with great pleasure that I invite you to submit articles for the “Interesting images” Special Collection. Since we introduced Interesting Images as an article type in *Diagnostics*, it has served as a valuable resource for the imaging community. Many have relayed that they use these image-based case reports when encountering challenging cases or images of diseases rarely seen. Further, pitfalls are covered by this type of article and may be helpful both for experienced and less experienced image readers in making a correct evaluation. To further promote submissions of Interesting Images, we are now launching this Special Collection. We hope you will submit your next interesting case.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.
