

Special Issue

Imaging in Kidney Disease 2.0

Message from the Guest Editors

Nephrology is a clinical specialty that recognizes the importance of advanced diagnostic imaging tools for the evaluation of parenchyma and vessels that can be involved in both acute and chronic renal pathologies and also benefits from vascular interventional procedures for the management of vascular accesses that are indispensable for replacement therapies of renal function. In this Special Issue, we collect the experiences of authors with proven experience in nephrological and vascular imaging, both for diagnostic and interventional purposes, and through a series of review articles, meta-analyses, and original studies, we aim to establish the state of the art, to provide a useful guide to daily activity for both clinical nephrologists and radiologists.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
