

Special Issue

Diagnosis and Management of Metabolic Bone Diseases

Message from the Guest Editors

Diagnostics is launching a special issue, focused on bone disorders in metabolic diseases (Inborn Errors of Metabolism). As sensitive, high-throughput diagnostic methods, along with new therapies have appeared, this topic has become the center of interest for scientists and pediatricians. On behalf of the Editorial office, I would like to invite you to contribute your research paper, review article, interesting case reports with a diagnostic way for peer-review and possible publication. In metabolic diseases, disorders of bone development, structure, and metabolism are a great challenge for physicians and scientists. There are many unsolved problems in this area regarding pathomechanism and therapeutic needs. Young researchers are welcome to present their achievements, pediatricians to share their experience of their clinical practice; all are invited to present new metabolic disorders identified by NGS. We encourage you to share the usefulness of new diagnostic methods as well as pitfalls of diagnostics of IEM. Also reports of long-term follow-up of IEM patients, as well as their management and care ensured by multidisciplinary teams of physicians.

Guest Editors

Prof. Dr. Anna Tylki-Szymańska

Department of Pediatrics, Nutrition and Metabolic Diseases, The Children's Memorial Health Institute, Al. Dzieci Polskich 20, 04-730 Warsaw, Poland

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
