Ovarian Cancer Screening

Message from the Guest Editor

Ovarian cancer is deadly, claiming more women than all other gynecological malignancies combined. However, when detected at an early stage ovarian cancer is highly curable. Consequently, screening efforts are likely to be the best way to detect early stage disease. The forthcoming Special Issue focuses on several key elements that are essential for an understanding of ovarian cancer screening:

- Screening trial design, make-up and execution;
- Treatment of women identified by screening;
- Collateral affectors in screening;
- Endpoints and efficacy;
- Interpretation of ovarian screening trials.

Guest Editor

Prof. Dr. Edward J. Pavlik

Ovarian Screening Research in Gynecologic Oncology, University of Kentucky College of Medicine, Lexington, KY 40536-0298, USA

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
