

Special Issue

Pancreatic and Biliary Diseases: Diagnostic, Predictive and Prognostic Markers

Message from the Guest Editors

There are various pancreatic and biliary diseases but advancing of both diagnosis and treatment is limited even in recent years. For the malignant diseases, pancreatic cancer and cholangiocarcinoma, early detection with some strategies, imaging modality and biomarkers are still under studying. The knowledge of prediction of the prognosis was poor as well. Other types of neoplasms in pancreas and bile duct, IPMN, P-NEN, MCN, SCN, IPNB, etc., are going to making standard management method. In this special issue, we want to show the current standard diagnostic method in these difficult diseases, and future perspective as well. We can accept original and review articles of these interesting area, and systematic reviews. I hope this special issue will be milestone of the diagnosis in pancreatobiliary diseases

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
