Prognostic Factors for Pediatric Tumors

Message from the Guest Editors

Biology has historically played a pivotal role in the prognostic risk assessment of childhood leukemia. The genomic landscape of pediatric leukemia has been mapped and redefined following large-scale sequencing efforts. Pediatric solid tumors are also biologically and morphologically heterogeneous, and the interplay between histologic examination and molecular interrogation has a pivotal role in the prognostication and direction of therapy. The incorporation of molecularly targeted therapies offers real promise for less toxic and more effective therapy. The identification of novel diagnostic and prognostic markers is required to individualize therapy. The present Special Issue is focused on prognostic markers in pediatric cancer. We would like to kindly invite you to contribute your original research or high-quality review articles in this endeavor.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
