Risk Factors and Biomarkers for Cardiovascular Disease

Message from the Guest Editors

Cardiovascular disease is still the leading cause of morbidity and mortality worldwide despite the great diagnostic and therapeutic progress made in recent decades. The intervention on cardiovascular risk factors is seen as the best long-term solution to improve the outcome of these patients. Therefore, their identification and appropriate therapeutic approach are of the utmost importance. Although there are many different risk factors that increase the likelihood of developing cardiovascular disease, they are largely preventable. By implementing a healthy lifestyle and appropriate pharmacological intervention, we can improve the longevity and quality of life of millions of people around the world. We invite you to share your knowledge and experience. Original and review papers that address cardiovascular risk factors in all aspects, from cellular and molecular mechanisms, and pathophysiological links to problems of diagnosis, treatment, and monitoring are welcome. Only a strong team can have results that matter!

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
