# Diagnosis and Treatment of Shoulder and Elbow Disease and Trauma 2.0

## Message from the Guest Editors

Shoulder and elbow pain is a common musculoskeletal condition that is recognized as a disabling problem and can be associated with substantial economic burden. The pain and disability associated with shoulder and elbow pain can have a large impact on individuals and their families, communities, and healthcare systems, affecting daily functioning and the ability to work. However, diagnosis and treatment of shoulder and elbow disease and trauma are sometimes challenging and are continuing to evolve. The primary goals of this Special Issue are to advance the science and practice of shoulder and elbow disease and trauma; to describe new and established diagnostic and treatment modalities for shoulder and elbow disease and trauma; and to improve quality of care by encouraging the collection of scientific data and functional outcomes.

# **About the Journal**

## Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

### Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

#### **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

#### **Journal Rank:**

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
