New Diagnostic and Therapeutic Approach of Thyroid Diseases

Message from the Guest Editor

Over the past few years, many multi-author practice guidelines with extensive bibliographies, for almost any disease have been published. In the field of thyroid diseases, their acceptance and applicability have not been overwhelming. On the other hand, daily practice is based on the observational experiences of practitioners. We propose that observational studies can provide an alternative for the creation of clear-cut guiding lines on how to manage thyroid diseases.

The aim of this Special Issue is to address experts in thyroidology to contribute concise and practical guiding lines. A guiding line should deal with one condition within the field. The key elements to be addressed are: How to approach the situation, and what is needed for diagnosis and therapy?

A final topic should evaluate the value of transcriptomic and proteomic approaches. Can they contribute to daily practice?

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
