Whole Body MRI: Major Advances and Future Perspective

Message from the Guest Editor

“Whole-Body MRI: Major Advances and Future Perspective” is a Special Issue of the Section Medical Imaging of *Diagnostics* that will highlight the state of the art of this MRI technique that has become increasingly important in the last 15 years. The combination of technical improvements in MRI hardware, technique of image acquisition, reconstruction algorithms and software as well as the introduction of diffusion-weighted imaging (DWI) and other derived pulse sequences, in addition to conventional MRI pulses, also in for whole-body imaging, have promoted advancements with a direct rebound in the clinical setting. The focus of this Special Issue will be on techniques and clinical applications of whole-body MRI, including DWI, for lymphoma, myeloma, oncologic staging, and metastases assessment, also in the post-treatment setting. This Special issue will also emphasize future perspectives of this technique, with a look to emerging applications and methods.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
