

## Special Issue

# Vitamin D in the New Decade: Facts, Controversies, and Future Perspectives for Daily Clinical Practice

### Message from the Guest Editor

This Special Issue will draw attention to all the intriguing and conflicting aspects of vitamin D research, including the following: Vitamin D deficiency and its widespread epidemiology; musculoskeletal and extra-skeletal effects; and critical updates on published vitamin D supplementation prevention RCTs (cancer/CVD). It will also include discourse on the future agenda with the main questions: What has changed so far in the field? What are future research milestones? In collecting the results reported here, the editors have not endeavored to achieve any sort of completeness, but rather to shed light on the ongoing controversy of the vitamin D “friendly” perspective versus vitamin D skepticism, with a discourse on clinical implications and physicians’ daily decision making into the beginning of the new decade.

---

### Guest Editor

Dr. Spyridon N. Karras  
Laboratory of Biological Chemistry, Medical School of Aristotle  
University, 55535 Thessaloniki, Greece

## About the Journal

### Message from the Editor-in-Chief

*Dietetics* is an international, peer-reviewed, open access journal of human dietetics. It publishes reviews, regular research papers, and communications. Our aim is to publish timely experimental and theoretical research results in a rapid and readily accessible manner.

### Editor-in-Chief

Prof. Dr. Bahram H. Arjmandi

1. Center for Advancing Exercise and Nutrition Research on Aging, Florida State University, Tallahassee, FL 32304, USA
2. Department of Nutrition, Food and Exercise Sciences, Florida State University, Tallahassee, FL 32304, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within ESCI (Web of Science), EBSCO and other databases.

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 27.3 days after submission; acceptance to publication is undertaken in 11.7 days (median values for papers published in this journal in the second half of 2025).
