

# Special Issue

## Digital in 2024

### Message from the Guest Editors

In 2023, our journal Digital was accepted into Scopus and dblp Computer Science Bibliography. Thanks go to our readers, innumerable authors, anonymous peer reviewers, editors, and all the people working in some way for the journal who have joined their efforts for years. To highlight another consecutive year of excellence, and to create a good start to the year, a Special Issue entitled "Digital in 2024" is being launched, which is part of the MDPI journal *New Year Special Issue Series*. This Special Issue will be a collection of high-quality reviews from our editors-in-chief, editorial board members, guest editors, topical advisory panel members, reviewer board members, authors, and reviewers. The submission deadline will be 31 March 2024. We kindly encourage all research groups to contribute up-to-date results from the latest development in their respective laboratories. You are welcome to send short proposals of feature papers to our editorial office ([digital@mdpi.com](mailto:digital@mdpi.com)) before submission. These will first be evaluated by our editors. Please note that the selected full papers will still be subject to a thorough and rigorous peer review.

#### Author Benefits

##### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

##### High Visibility:

indexed within Scopus, Ei Compendex, EBSCO, and other databases.

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 33.9 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2025).
