

## Special Issue

# Selected Papers from the 6th IASSIDD Europe Congress

### Message from the Guest Editors

This Special Issue is in cooperation with the 6th International Association for the Scientific Study of Intellectual and Developmental Disabilities (IASSIDD) Europe Congress, from 6 to 8 July 2021. We welcome submissions from the participants of the conference. All conference contributors, both to oral and poster sessions, are encouraged to submit a full paper related to their contribution to this Special Issue of *Disabilities*, with a 100% discount on the article processing charges.

## About the Journal

### Message from the Editor-in-Chief

Disability is a multidimensional construct and is the product of complex and situational interactions between an individual's attributes and their environments. This broadens the perspective of disability and allows for the examination of individual, social, and environmental influences on functioning, disability, and ability occurring in historical and cultural settings.

Consequently, *Disabilities* is inclusive of all types of disability, across all ages and contexts. We particularly welcome articles from low- and middle- income countries and articles that are authored/co-authored by people with the lived experience of disabilities.
