Diseases: From Molecular to the Clinical Perspectives

Message from the Guest Editor

We are glad to announce the [1st International Online Conference on Diseases: From Molecular to the Clinical Perspectives](https://sciforum.net/event/IOCD2025), which is part of the [International Online Conference on Diseases series](https://sciforum.net/event/IOCD2025). This conference aims to provide leading scientists working in the field of diseases, from molecular to clinical perspectives, with a robust common platform through which to share and discuss the latest research and promote the advancement of this exciting and rapidly changing field. The website of IOCD-2025 is

<https://sciforum.net/event/IOCD2025>. We hope to encourage discovery across the discipline as we cover, in this Special Issue, the following themes in a broader way, from molecular to clinical perspectives:

- Infectious diseases;
- Nutrition and dietetics;
- Immune and inflammatory diseases;
- Geriatrics;
- Cardiovascular diseases;
- Neuropsychiatric disorders;
- Endocrine and metabolic disorders.

Our journal *Diseases* (ISSN: 2079-9721) provides an advanced forum for studies related to human diseases and conditions. The aim of *Diseases* is to encourage scientists to publish their experimental and theoretical results in as much detail as possible.

About the Journal

Message from the Editor-in-Chief

Diseases is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

Diseases is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Omar Cauli
