Special Issue

Oral Health and Care

Message from the Guest Editors

Oral health is an integral part of general health and wellbeing, especially in the context of aging populations and the rising prevalence of chronic diseases. Increasing amounts of evidence highlight the bidirectional relationship between oral and systemic health, underlining the importance of integrated, interdisciplinary care approaches. The oral cavity reflects systemic conditions and may influence the onset or progression of various diseases through inflammatory, microbial, or behavioral pathways. This Special Issue aims to explore the most recent advances in oral health care, with an emphasis on prosthetic rehabilitation, periodontal disease, oral-systemic links. geriatric oral care, and the use of novel diagnostic biomarkers. By gathering high-quality research and review articles, this collection intends to provide new insights that can improve clinical practice and preventive strategies in dentistry and beyond.

About the Journal

Message from the Editorial Board

Diseases is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

Diseases is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, Diseases is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Prof. Dr. Omar Cauli

Frailty and Cognitive Impairment—FROG Research Group, University of Valencia, 46010 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.7 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
