

# Special Issue

## Oral Health and Care

### Message from the Guest Editors

Oral health is an integral part of general health and well-being, especially in the context of aging populations and the rising prevalence of chronic diseases. Increasing amounts of evidence highlight the bidirectional relationship between oral and systemic health, underlining the importance of integrated, interdisciplinary care approaches. The oral cavity reflects systemic conditions and may influence the onset or progression of various diseases through inflammatory, microbial, or behavioral pathways. This Special Issue aims to explore the most recent advances in oral health care, with an emphasis on prosthetic rehabilitation, periodontal disease, oral–systemic links, geriatric oral care, and the use of novel diagnostic biomarkers. By gathering high-quality research and review articles, this collection intends to provide new insights that can improve clinical practice and preventive strategies in dentistry and beyond.

### Guest Editors

Dr. Dana Gabriela Budală

Department of Dental Prosthesis, Faculty of Dental Medicine, “Grigore T. Popa” University of Medicine and Pharmacy, 700115 Iasi, Romania

Prof. Dr. Ionut Luchian

Faculty of Dental Medicine, “Grigore T. Popa” University of Medicine and Pharmacy, 16 University Street, 700115 Iasi, Romania

### Deadline for manuscript submissions

closed (31 January 2026)

## About the Journal

### Message from the Editor-in-Chief

*Diseases* is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

*Diseases* is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Medicine, Research and Experimental)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
