

Special Issue

COVID-19 and Global Chronic Disease 2023

Message from the Guest Editors

Coronavirus disease 2019 (COVID-19) is the condition caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). The rapid spread of the disease and several waves and peaks have imposed strong pressure on the health systems worldwide. This global scenario also changes the ways to perform research. In fact, for the first time, the scholars working on COVID-19-related issues have been consulted ahead of political decisions to manage the impact of the pandemic on society and to deliver in a few months medical solutions, such as vaccines and new therapies. Furthermore, the COVID-19 crisis emphasizes the connections between research, clinical practice and health policies. However, despite these extraordinary results in human history, some points on COVID-19 need to be clarified. This Special Issue, titled “COVID-19 and Global Chronic Disease II”, aims to report the state of the art and the new findings on COVID-19. In particular, we want to discuss the recent novel therapies, vaccines and public health policies related to this pandemic.

Guest Editors

Prof. Dr. Ludovico Abenavoli

Department of Health Sciences, University “Magna Græcia”, Campus Germaneto, I-88100 Catanzaro, Italy

Dr. Christian Zanza

Post Graduate School of Geriatric Medicine, University of Rome “Tor Vergata”, 00133 Rome, Italy

About the Journal

Message from the Editorial Board

Diseases is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

Diseases is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Prof. Dr. Omar Cauli

Frailty and Cognitive Impairment—FROG Research Group, University of
Valencia, 46010 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.7 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
