Special Issue

Diagnostic and Therapeutic Challenges in Oral Medicine

Message from the Guest Editors

Successful dental treatment depends on the capacity to make diagnoses. New frontiers in oral medicine have enhanced the diagnostic and therapeutic workflow. Diagnosis is made of key elements: definition, classification, and prioritization.

Oral medicine encompasses a variety of disciplines, ranging from basic science to clinical studies. Anatomy, pathology, epidemiology, genetics, biochemistry, microbiology, and engineering provide new proposals and perspectives to the current scenario.

However, controversy remains regarding treatment alternatives with respect to the burden of care and their risk/benefit on the quality of life of patients.

For this Special Issue, we welcome studies introducing 3D technologies, investigating signs and symptoms of oral pathologies and syndromic conditions and comparing different diagnostic techniques and therapeutic approaches in oral medicine.

Guest Editors

Dr. Edoardo Staderini

Fondazione Policlinico Universitario A. Gemelli IRCCS, Università Cattolica del Sacro Cuore, Postgraduate School of Orthodontics, Largo Francesco Vito 1, 00168 Rome, Italy

Prof. Dr. Massimo Cordaro

Istituto di Odontoiatria e Chirurgia Maxillo-Facciale, Università Cattolica del Sacro Cuore, 00168 Rome, Italy

Deadline for manuscript submissions

Diseases

About the Journal

Message from the Editorial Board

Diseases is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets. *Diseases* is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Maurizio Battino
Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Prof. Dr. Omar Cauli
Frailty and Cognitive Impairment–FROG Research Group, University of Valencia, 46010 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.7 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
