Special Issue

Epigenetics and Disease

Message from the Guest Editor

The development of tissues involves the direction of specific programs for gene expression among distinct cell types. Those programs are often established in a heritable state by virtue of epigenetic mechanisms and corresponding pathways of cellular memory. Thus, the broad synchronization in patterns of gene expression ultimately dictates cellular consequences. Aberrations in these epigenetic mechanisms are known to be associated with a range of diseases. This correlation between epigenetic aberrations and disease is the focus of this Special Issue of *Diseases*. For this issue, we invite papers related to the molecular, cellular, and clinical significance of epigenetic aberrations as well as treatments based on the modulation of epigenetic mechanisms in the clinical management of disease.

About the Journal

Message from the Editorial Board

Diseases is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

Diseases is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, Diseases is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Prof. Dr. Omar Cauli

Frailty and Cognitive Impairment—FROG Research Group, University of Valencia, 46010 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.7 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
