Special Issue

Host-pathogen Interactions in Ebola, Chikungunya, and Zika Viruses

Message from the Guest Editor

The interaction between an invading pathogen and the host factors they engage will determine the outcome of an infection. Broadly speaking, a host factor can play either of two roles during the course of an infection: (1) A given factor can be used by the pathogen to support a productive infection, or (2) A given factor can serve as a countermeasure that is in place to impair the infection process. The precise understanding of the interplay between the function of these factors aids our understanding of the molecular pathogenesis underlying infections. This topic collection focuses on host interaction with three key pathogens: Ebola virus (EBOV), Chikungunya virus (CHIKV), and Zika virus (ZIKV). All three pathogens have emerged recently, with devastating effects globally. The purpose of this open access topic collection is to assemble a collection of research papers and reviews to enable further communication among scientists in the field. The topic can include any aspect of host interactions with EBOV, CHIKV, and ZIKV.

About the Journal

Message from the Editorial Board

Diseases is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

Diseases is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, Diseases is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

Editors-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Prof. Dr. Omar Cauli

Frailty and Cognitive Impairment—FROG Research Group, University of Valencia, 46010 Valencia, Spain

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.7 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
