# Special Issue

# Infectious Disease Epidemiology 2024

## Message from the Guest Editors

Many developing countries are burdened with an influx of infectious diseases, including diarrhea, malaria, tuberculosis, and HIV/AIDS. Although vaccines provide protection against most infectious diseases, newer and emerging illnesses such as Ebola fever, SERS coronavirus disease, MARS, Nipah virus, Hantavirus, Dengue fever, Chikungunya, Rocky Mountain Spotted Fever, West Nile virus infection, etc., continue to represent prominent public health threats worldwide. Climate change and global warming are increasing the prevalence of many vector-borne diseases, including malaria, Dengue fever, Chagas disease, leishmaniasis, filariasis, onchocerciasis, schistosomiasis, and trypanosomiasis. Over time, many infectious organisms have adapted to the drugs designed to kill them, developing resistance to commonly used antimicrobials, fueled by improper medication or self-medication. There is a growing need to identify at-risk populations, social and environmental factors, and economic burdens and to prioritize resources accordingly.

## **About the Journal**

## Message from the Editorial Board

Diseases is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

Diseases is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, Diseases is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

### **Editors-in-Chief**

#### Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

## Prof. Dr. Omar Cauli

Frailty and Cognitive Impairment—FROG Research Group, University of Valencia, 46010 Valencia, Spain

#### **Author Benefits**

### **High Visibility:**

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Medicine, Research and Experimental) Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.7 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2025).

### **Recognition of Reviewers:**

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
