

# Special Issue

## Care Integration for the Management of Chronic Diseases within Primary Health Care

### Message from the Guest Editors

The following questions could guide existing research to respond to the content of this specific issue:

- What types of integrated care models are suitable and appropriate for managing chronic diseases within primary health care, with a particular focus on governance and payment systems?
- To what extent do digital tools contribute to the facilitation of care integration for the management of chronic diseases within primary health care?
- What methodologies and procedures hold the potential for effectively implementing integrated care models in primary health care, emphasizing process and outcome evaluation?
- What factors serve to either facilitate or hinder the implementation of integrated care for chronic disease management within primary health care?
- What challenges does the healthcare workforce encounter when endeavoring to implement integrated care approaches?
- Which training programs and educational interventions have proven effective in implementing integrated care models within primary health care?

## About the Journal

### Message from the Editor-in-Chief

*Diseases* is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

*Diseases* is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Omar Cauli

Frailty and Cognitive Impairment—FROG Research Group, University of Valencia, 46010 Valencia, Spain

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Medicine, Research and Experimental)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
