

# Special Issue

## Recent Advances in Gastroenterology and Nutrition

### Message from the Guest Editors

Technological advances, such as metagenomics and proteomics, have greatly accelerated our understanding of the gut microbiota in health and diseases. Significant differences in the gut microbiota occur in many clinical conditions at different stages of life. This Special Issue aims to provide new knowledge on how the gut microbiome is connected to the development of disease, identify bacterial and metabolic targets, and evaluate the role of gut microbiome modulation/manipulation in disease states. This Special Issue welcomes research papers and reviews that cover a wide range of topics, including how the gut microbiome plays a role in the pathophysiology of different diseases, the impact of nutrition, metabolite biomarkers and the role of microbiome modulation/manipulation through interventions.

## About the Journal

### Message from the Editor-in-Chief

*Diseases* is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

*Diseases* is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Omar Cauli

Frailty and Cognitive Impairment—FROG Research Group, University of Valencia, 46010 Valencia, Spain

---

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Medicine, Research and Experimental)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the second half of 2025).
