closed (30 June 2024)

Message from the Guest Editors

With the Special Issue of *Diversity*, we aim to promote the publication and sharing of future-proof data for the National Biodiversity Future Centre (NBFC) focusing on the Ligurian Sea and on all aspects of marine biodiversity, from molecules, genes and populations, and scaling up, to species and communities.

We welcome contributions presenting recent advances in biodiversity, taxonomy and species conservation sharing the vision of NBFC goals. Contributions do not have to specifically refer to MPAs, provided the Ligurian Sea is considered, and may focus on all groups of organisms, not just key species.

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
