## State-of-the-Art Biodiversity Research in Poland

Guest Editors:

**Prof. Dr. Jakub Sawicki**

Department of Botany and  
Nature Protection, University of  
Warmia and Mazury in Olsztyn,  
Plac Łódzki 1, 10-727 Olsztyn,  
Poland

**Dr. Magdalena Grabowska**

Department of Hydrobiology,  
Faculty of Biology, University of  
Białystok, Ciołkowskiego 1J, 15-  
245 Białystok, Poland

**Dr. Izabela Poprawa**

Institute of Biology,  
Biotechnology and  
Environmental Protection,  
Faculty of Natural Sciences,  
University of Silesia in Katowice,  
Bankowa 9, 40-007 Katowice,  
Poland

### Message from the Guest Editors

Biodiversity is a fundamental feature of nature and determines the diversity of ecosystems, species, and their genes. Greater biodiversity means a more stable environment, better functioning, and more resistance to changes. Organisms in ecosystems interact with each other. The loss of even one species does not go unnoticed, but it impairs the functioning of the entire ecosystem, making it less stable. Such changes are irreversible, and very often, they are caused by human activity. The loss of biodiversity is the greatest threat to the proper functioning of life on Earth. This Special Issue is devoted to various aspects of research on biodiversity carried out by Polish scientists. Manuscripts for this issue should focus on issues such as a) diversity of living organisms, b) influx of alien invasive species, c) environmental stressors and biodiversity, and d) protection of biodiversity.

Deadline for manuscript  
submissions:

**closed (28 February 2023)**

## Editor-in-Chief

### **Prof. Dr. Michael Wink**

Institute of Pharmacy and  
Molecular Biotechnology,  
Heidelberg University, Im  
Neuenheimer Feld 329, D-69120  
Heidelberg, Germany

## Message from the Editor-in-Chief

*Diversity* (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
