closed (1 December 2022)

Message from the Guest Editors

Dear Colleagues,

Plants supply edible, medicinal, oil, industrial raw materials for humans. The continuous improvement and enrichment of human well-being, to a certain extent, rely on the excavation and use of plants. However, plant resources are facing an unprecedented threat as affected by the impact of human disturbance in combination with global climate change. The degradation or loss of habitat has resulted in an accelerated rate of extinction of plant species, as well as changes in the zonation, biological phenology, and reproductive patterns of plant species. Recently, the conservation and restoration of plant species are being brought into the focus of ecological research.

Special Issue

diversity

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and
Molecular Biotechnology,
Heidelberg University, Im
Neuenheimer Feld 329, D-69120
Heidelberg, Germany

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
