Diversity and Ecological Impact of Parasites on Amphibians and Reptiles

Guest Editors:

Prof. Dr. Ulrich Sinsch

Institute of Integrated Sciences;
Department of Biology, University
of Koblenz-Landau, Koblenz,
Germany

**Prof. Dr. Patrick Leander
Scheid**

1. Institute of Integrated
Sciences; Department of Biology,
University of Koblenz-Landau,
Koblenz, Germany
2. Laboratory of Medical
Parasitology, Department XXI
(Med. Microbiology), Central
Military Hospital Koblenz,
Koblenz, Germany

Deadline for manuscript
submissions:

closed (30 June 2021)

Message from the Guest Editors

This Special Issue welcomes contributions on any of these aspects. Special emphasis is given to: (1) experimental studies on the interactions of host and parasite, including infection biology, (2) analyses of parasite community structure and its plasticity in wide-ranging hosts, (3) coevolution of hosts and parasite diversity, and (4) reviews covering comprehensively epidemiological, ecological or phylogenetic aspects of parasite diversity and impact.

- Taxonomical and functional diversity of parasites
- Host–parasite interactions
- Coevolution of host–parasite systems
- Infection biology
- Impact of parasite load on host ecology and behavior
- parasites on amphibians and reptiles: zoonoses and reverse zoonoses

Special Issue

diversity

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and
Molecular Biotechnology,
Heidelberg University, Im
Neuenheimer Feld 329, D-69120
Heidelberg, Germany

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
