Message from the Guest Editor

Dear colleagues,

Vascular plants, i.e. plants with a vascular system containing xylem and phloem, with nearly 400,000 species and subspecies currently known, provide crucial primary production and vital socioeconomic and environmental services (e.g., soil and water conservation).

This Special Issue will focus on interdisciplinary new research and significant advances in conservation biology of vascular plants. Authors are encouraged to submit their manuscripts on the following topics: (1) Diversity and distribution of rare vascular plants; (2) Human influence (e.g., land use change, pollution, invasion of alien species, fire, tourism) on vascular plant conservation; (3) Natural disaster influence (e.g., volcanic eruptions, tsunamis) on vascular plant conservation; (4) In situ and ex situ conservation actions to vascular plants, including reintroduction and restocking actions; (5) In vitro propagation (e.g., seed germination, micropropagation) experiences for vascular plants; (6) Early warning and modeling of threats to vascular plants; (7) Conservation policies (e.g., communication, education, and public awareness programmes) to conserve vascular plants.

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
