Deadline for manuscript
submissions:

closed (15 March 2023)

Message from the Guest Editor

This Special Issue will spotlight recent advances in research on nearshore biodiversity, as varied as its relationship with biogeography, coastal oceanographic processes, ecosystem functions, species introductions and range shifts, community ecology and genetics. Research concerned with the interactions of commercial harvesting, aquaculture and pollution with nearshore biodiversity is also invited. In summary, this collection aims to present, in a broad sense, a global comparison of nearshore biodiversity and the drivers of change.

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biodiversity Conservation*) / CiteScore - Q2 (*Agricultural and Biological Sciences (miscellaneous)*)
