

Special Issue

Avian Genetic Diversity

Message from the Guest Editors

In this Special Issue, we invite contributions that highlight how genetic diversity studies have advanced our knowledge of birds and provide insights for decision-making regarding their management and conservation. We also welcome contributions that shed light on past events and dynamics that have shaped the present-day biogeography of entire regions. We also welcome contributions that demonstrate the importance of genetic diversity in elucidating the validity of contentious taxa and clarifying, as well as those that explore the genetic drivers behind adaptation to certain environmental conditions. Of particular interest is research addressing the loss of genetic diversity across temporal and spatial scales and issues related to human-mediated introgressive hybridisation. This Special Issue encompasses research papers, reviews, and short communications related to the topics of interest.

Guest Editors

Dr. Giovanni Forcina

Department of Life Sciences, Universidad de Alcalá, 28805 Alcalá de Henares, Madrid, Spain

Dr. Tamer Albayrak

Department of Biology, Science Faculty, Dokuz Eylül University, 35390 İzmir, Turkey

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
