

Special Issue

Taxonomy, Systematics and Evolution of Coleoptera

Message from the Guest Editor

As we well know, the Creator had an inordinate fondness for beetles (J. B. S. Haldane), and so far almost a half million species of this largest animal order have been described. Hundreds of new beetle species are found around the world every year. I have been interested in these beautiful creatures since the 1970s, for more than 40 years. Over the course of these years, I have been a witness of the decline of insect biodiversity in the Central European fauna and the degradation of natural habitats in various parts of the world. Now, I would like to offer you a Special Issue focused on beetles, especially their systematics and evolution. Therefore, we would greatly appreciate high-level articles dealing with beetle taxonomy, biogeography, phylogenomics, morphology, paleontology and other aspects related to beetle diversity.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
