

Special Issue

Diversity, Ecology, Evolution and Conservation and of Snakes

Message from the Guest Editors

Snakes are one of the most underappreciated groups of organisms in the world, yet their role in their native ecosystems are vital, serving as both the predator and the prey. With new species being discovered regularly, snake diversity continues to grow. This growth is accompanied by the continued need for the study of evolution and diversity, as well as concentrated efforts for conservation and management. By continuing the study of snakes, we contribute meaningful research to the growing body of scientific literature. This Special Issue of *Diversity* provides an opportunity to share interesting and novel research regarding snake diversity, ecology, evolution, and conservation. I invite you to contribute your research and publications to this Special Issue. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Diversity (ISSN 1424-2818) is a scholarly journal that covers all areas of diversity research. Our distinguished editorial board and refereeing process ensures the highest degree of scientific rigor for publishing. Original research articles and timely reviews are released online, with unlimited free access.

We invite papers and reviews on multidisciplinary topics of diversity that bridge organismic diversity (systematics, biodiversity, phylogeny, population genetics, and evolution) and molecular diversity (phytochemistry and biophysics).

Editor-in-Chief

Prof. Dr. Michael Wink

Institute of Pharmacy and Molecular Biotechnology, Heidelberg
University, Im Neuenheimer Feld 329, D-69120 Heidelberg, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubAg, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Biodiversity Conservation) / CiteScore - Q1
(Agricultural and Biological Sciences (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
